Summary

Self-taught AI-Powered Full Stack Engineer with hands-on experience building and deploying modern web applications using JavaScript, TypeScript, React, Next.js, Node.js, and MongoDB. Experienced in integrating AI/LLM technologies, including RAG, LangChain, prompt engineering, and AI APIs, while applying RESTful APIs. Strong focus on building scalable, production-ready applications with modern development practices, cloud infrastructure, CI/CD, Docker, and performance-oriented architectures.

Projects

InterviewIQ.ai — AI Interview Agent Jan 2022 – Present
https://ai-interview-agent-5rom.onrender.com *Remote*

- Technologies: React.js, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose, JWT, OpenRouter API, Razorpay, Firebase.
- Developed an AI-powered interview platform with personalized interviews based on job roles, skills, and uploaded resumes.
- Implemented voice- and text-based interviews, AI-powered answer evaluation, and downloadable PDF reports.
- Integrated OpenRouter API for AI features and Razorpay for payment processing.

FOREVER — Full-Stack E-Commerce with Admin Panel June 2022 – Dec 2023
https://forever-frontend-bice-three.vercel.app *Delhi, India*

- Developed enterprise web applications using React, .NET, and MS SQL, implementing secure authentication and protected data flows.
- Built and maintained REST APIs for internal and customer-facing applications.
- Implemented real-time application features using WebSocket and SignalR for live notifications and data updates.
- Integrated payment gateways, maps, and third-party APIs to support end-to-end business workflows.

GenWeb.ai — AI Website Builder Jan 2022 – May 2022
https://ai-website-builder-1-eka6.onrender.com *Remote*

- Technologies: React.js, Redux Toolkit, Tailwind CSS, Axios, Node.js, Express.js, MongoDB, Mongoose, JWT, AI API Integration, Firebase, Stripe.
- Developed an AI-powered website builder that generates personalized website layouts and content based on user prompts and preferences.
- Implemented interactive website customization, responsive layouts, and centralized state management using Redux Toolkit to enhance the website creation experience.
- Integrated AI APIs, JWT-based authentication, Firebase services, and Stripe payment processing to support AI-powered generation, secure user access, and subscription-based features.

Technical Skills

Languages: JavaScript, TypeScript, HTML, CSS
Frontend: React.js, Next.js, Tailwind CSS
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, Redis
AI and Systems: RAG, LangChain, LangGraph ,Prompt Engineering, AI/LLM Integration
Cloud and DevOps: AWS, Docker, CI/CD
Tools and Protocols: Git, GitHub, WebSocket

Certification

AI-Powered Full Stack Development
Sheryians Coding School | Cohort 3.0

Education

S.K.M University 2022 – 2026
Bachelor of Arts Godda, Jharkhand
